

- 7. Working hours:** We will prefer to work with business partners who try and meet the 60 hour week limit. Whenever the regular work hour limit is exceeded we expect the workers to be compensated per the local law for the additional hours. We will accept flexibility in scheduling work hours however we will not use business partners, who on a regular and systematic basis work more than the 60 hour week. Also, workers should be given one day off in seven days.
- 8. Wages and Benefits:** We will only work with such business partners who compensate their workers as per the prevailing law and provide all benefits legally due to them.
- 9. Freedom of Association:** We respect the rights of workers to join an association of their choice and their right to Collective Bargaining. We will work with such business partners who share this belief and they should ensure that workers who participate or associate with such movements are not discriminated against. No Punitive action should be taken against such workers for being a part of such association or movement as long as they don't violate any of the local laws.
- 10. Discrimination:** While being cognizant of cultural, religious and other differences, we firmly believe that workers should be given an opportunity to work based on their skills only. Caste, Creed, Race etc: shall not be a part of the process used to decide employability.
- 11. Unauthorized Subcontract:** At PDS Multinational, unauthorized subcontracting is considered a Zero Tolerance Violation. No vendor shall subcontract any aspect of production without prior information to and approval from the group companies. Any violation will result in delisting of such factories.
- 12. Health & safety:** We will engage only with such factories who provide their workers a safe and healthy work environment.
- 13. Environment:** We will want all our business partners to ensure that their work process does not affect the environment adversely in any way. It is expected of all our business partners to meet the legal requirement on all environmental aspects and continuously strive to go beyond just meeting the law.
- 14. Dormitories:** Any business partner providing residential facilities to their workers should ensure that it is safe and hygienic.
